ISRA SAMOO

Trainee Software Developer

Karachi, Pakistan | +92 326 9267697 | israsamoo038@gmail.com | linkedin.com/in/isra-samoo-9a47a9279

SUMMARY

Computer Systems Engineering graduate with hands-on experience in software development gained through a five-month internship at Karachi Shipyard & Engineering Works, where I worked on real web applications used within the organisation. Comfortable working on both the front-end and back-end side of an application, fixing issues in existing systems, and learning new tools quickly. Looking for a trainee or junior software developer role where I can keep building practical engineering experience.

WORK EXPERIENCE

Software Development Intern – *Karachi Shipyard & Engineering Works* Apr 2026 – Aug 2026

- Developed an Examination Management System to digitise and automate the Training School's examination process.
- Built three role-based portals – Admin, Teacher and Student – covering user approval, classroom enrolment, exam creation and results.
- Worked on both the front-end interface and the back-end services, including the database used to store users, exams and results.
- Improved and debugged the existing in-house Inventory Management System, fixing calculation and data-accuracy issues and adding search and filtering features for staff.
- Gained practical exposure to the company's ERP platform (IFS Applications) used for procurement and inventory operations.

E-commerce Developer / Product Research Specialist – *Skillance Pvt. Ltd.* Jun 2024 – Dec 2025

- Managed product listings, pricing strategies and market research to support sales performance.
- Maintained online stores across platforms including Amazon, eBay and Walmart.

Social Media Engagement & Reputation Management – *Tekgen Technical Institute* Jul 2025 – Aug 2025

- Gained practical exposure to social media management while developing teamwork and time-management skills.

WordPress Developer Intern – *NS Training* Dec 2023 – Jan 2024

- Created and maintained multiple websites using WordPress for freelance clients.

EDUCATION

Bachelor of Engineering (BE), Computer Systems Engineering – *Mehran University of Engineering & Technology, Jamshoro* Nov 2021 – Nov 2025
CGPA: 3.29 / 4.00

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, PHP, C/C++, Dart
Web Development: HTML, CSS, JavaScript, React, Spring Boot
Databases: PostgreSQL, MySQL, SQL
Data Science & AI Tools: NumPy, Pandas, Machine Learning, Computer Vision (YOLOv8, OpenCV)
Tools: Git, VS Code, WordPress, IFS Applications (ERP), MS Office

PROJECTS

Real-Time Cigarette Smoking Detection System (Final Year Project)

- Built using YOLOv8 for cigarette detection and FaceNet/MTCNN for face recognition.
- Implemented real-time alerts and automatic image capturing of detected individuals.
- Designed a web application to display model outputs and maintain records for university monitoring.

Scentra – Perfume E-commerce Website

- Developed a responsive e-commerce website with product categories and detailed product pages.
- Integrated product data from a database and built a shopping cart and checkout flow.

Bookshelf – Mobile Application (Flutter)

- Built a mobile app for managing personal book libraries with search, favourites and reading-progress tracking.
- Implemented categorised book lists and a statistics dashboard.
